

I made it to 63 days before and now I'm back
Posted by Anonymous1234567 - 04 Jan 2022 11:31

I made it to 63 days before in 2011 and also 150 days but I don't remember the exact days for 150 days (around 5 to 6 months) in 2012. Now I'm back in this site to help me get back to where I started to stop masturbating and watching porn... right now, just music videos are the one that gets me by surprise if I'm not careful what I watch. I need Hashem help and thank you Guardyoureyes for helping me out

You are much better off now than when you started out.

You have many clean days that are yours to keep for ever and they should serve as a proof that you can do it again.

The main this is not to focus on the past or the future. Just take it one day at a time (or even one hour at a time if needed). With the help of Hashem and your friends at GYE you'll be able to get places that you did not dream of...

@Shtarkandemotional

I have failed first time I tried in years but I'm getting back up again...

If you tried where you haven't tried before, that's already a win. Keep working at it, you don't lose until you give up.
