

Support Groups

First time posting. I began my journey about a year ago with many small successes, but never more than a month without porn and masturbation (streaks usually are closer to a week, sometimes two). My inspiration has mainly been the online nofap community. ?I am currently about 5 days sober (I try not to count) and feeling extremely vulnerable.

After watching Eli Nash's 3 and half hour Q&A with Rabbi YY Jacobson, I have resolved to take my recovery to the next level.

As a first step, I would like to start attending in person support groups. Does anyone know of any in or near Monsey?
