

married and hurting

Posted by stillstanding - 02 Oct 2023 15:56

Hi anyone...

I'm in a lot of pain... My wife is **constantly** rejecting me physically and it really hurts me emotionally. Somehow it's always my fault that she's "repelled" by me and it seems that, no matter how hard I try to please her, she does not feel like even hugging me. This has been going on for years, with therapy and all. When I get to the office, I just feel like escaping, but I know I am just hurting myself.

I'm still standing... but barely.

Thanks for listening and gut moed

Welcome! Sorry to hear. If this is going in for years, was it always like that or were there good times? Do you have children? Any idea what changed?

Hi and welcome

I can feel your pain and I hope I would be able to give you advice.

By sticking around you can get some chizuk.

1, I see on your profile that have registered 3 years ago, where have you been all the time ?

2, Have you done something in the past that keeps your wife away from you ?
