Did you complete a 12-step program?? Posted by DovInIsrael - 21 Nov 2010 18:58

Hi -

Its been awhile since I posted.. but I am back.

I need your feeback ...perhaps you can help, by taking a few moments to think and answer the following:

Did you complete a 12-step program?

What do you feel you need most, now?

If there was one thing you would like to know - what would it be?

If there was a follow up program - what topics would you like to see covered?

If there was a follow up program (a submarine launch) to delve deeper into WHY we act the way we do...and could hopefully answer the question:

"I did the 12-step program, but still keep slipping - WHAT'S UP WITH THAT??"

Would you be interested in attending?

How many times a week?

Which time slots would be best for you?

thanks

with love and brachas.

The submarine launch sounds great to me coz i covered the 12 step program and keep falling!

although, i cant say im working the steps hard enough...

chazara of the original program with a buddy is a great idea i think.

Perhaps more focus on the steps themselves, eg steps 4&5 had great personal attention and real avodah behind them, maybe if we could focus on steps 1-3 in such a way, with exercises and a mentor/sponsor to give individual attention...

Am I making sense? Have I answered your questions?

Re: Did you complete a 12-step program?? Posted by DovInIsrael - 23 Nov 2010 08:46 good feedback - thanks

we are calling it a submarine launch - since it is meant to be supplimental program to the regular DC 12-program

the steps work if you work them

however - I realize that we tend not to do the steps because of other things which migh the blocking us from doing so (its called RESTANCE)

so the idea is to tackle the steps from a completely different perspective (in this case from a creative, fun, right side of the brain approach)

one of the things I hope to also achieve is to have a buddy system right from the begining.

Interested?

What time slots are you available ??
