

The K9 internet filter

Posted by Yehuda0612 - 11 Jan 2011 05:10

I want to sign up for the K9 internet filter. (www.guardyoureyes.org/?p=24) but I don't have a partner. I tried using the filter.gye@gmail.com but it says that e-mail address has been used too many times. What other e-mail address should I use?

Contact the filter gabbi directly. He will send you all the info...

Good luck!

P.S Even if you do get a partner, I would use the filter gabbi because you may need the password later on and he is usually prompt at replying.

Don't try filter.gye1@gmail.com

The real address is filter1.gye@gmail.com

Contact filter.gye@gmail.com and mention to him that the account is full. That is what I did and he took care of it. Just do it, you'll see for yourself!
