I'm a newbie here and have not been very active, but I just saw a video on Ted.com which I felt I need to share here....

[www.ted.com/talks/zimchallenge.html](http://www.ted.com/talks/zimchallenge.html)

The title is "The Demise of Guys"

In brief, the video is by a got speaker about how porn and video game addictions is affecting today's males. The data is scary.

I could not watch the clip, since my filter blocked it, but I googled it. The version I heard there was a lot of cursing, but this guy is a genius!
