

Wet dreams

Years ago I had them, but this 85 days I did not have any wet dreams, but some images at night and in day. I made an earnest commitment of those images or I think it could help with wet dreams to our Maker, I would not let Him go until He blessed me. Every time the body chooses to go on auto, claim the restoring power to do righteousness in blessed HaShem, keep seeking until it's yours, there are natural remedies , herbs of the field He is ready to work with. We are told this in Torah.
