

I deleted 1-gigabite(GB) of p-rn videos!

Posted by yesha - 11 Mar 2009 17:43

It wasn't easy. After I broke and trashed 10 p-rn videos, having had them and watched them over 2 years, dozens and dozens of times, I clicked delete on the "real" folder - containing 1-gig worth of p-rn videos.

I hardly have any p-rn vids left. I havn't really watched p-rn for 5-mounths. I hav'nt masturbated over p-rn for 5 mounths now. I did however log on and see some illicit p-rn nature disturbing (not illeagal images).

As long as I could see the title of a video being deletd I couldn't erase it. Since I removed the real file, conntaing the downloaded real player files , i removed all the videos with one swoop - without it bringing back memories. I do though have memories sometimes of sum of the clips - and can get eroused. Thanks to p-ornaddiction.ca (spelled without the dash)- a Canadian site- I maddghed to keep of p-rn-though I still masturbate, less thanks to excelllent GYE e-mails.!

Thanks to you all,

Shmuel

Wow!

I envy the Schar you will get for what you have done!

Hashem is looking down at you and smiling.

By virtue of what you have done- an act of betrayal to your former master, the Yetzer Hara- you will find the strength to get rid of the rest of the garbage you may have left and the strength to stop masturbating once and for all.

We are here to help you, give you chizuk, and help you reach greater heights!

Mashiach is on the way, and now you, Shmuel. will be a part of it too!

Stay strong and dont look back.

Chazak V'Ematz!

I once heard a beautiful story about a seminary girl in yerushalayim that 'woke-up' erev yom kippur and decided to put an end to goyisha movies. but since hisorirus is fleeting by nature, that very moment she was found on the streets of yerushalayim with the principal of her seminary snapping her whole disc collection (hopefully she cleaned up the ones with unclean pictures). Now that i killed the story, it's wonderful to hear a new version of it. Don't waste the moment, break the last few as a zchus for a shidduch for an 'older' girl, or a refuah shelaima for a choleh. And be'ezrat hashem you should be zoche to see the fruits of your labor, although you will never tell them what you did for them. (if you can't do it for your sake, why not do it for theirs???)

Wanted to install k9, but too confused or embarrassed to ask for help?

Here is the answer to your prayers.....

I've discovered the greatest way to spread k9 web protection

easily, without embarrassment and for FREE!!!!!!

Using a special, easily installed, free program called crossloop, I (or anyone in the forum for that matter) can help install, make a password or alter k9 web protection.

I myself am more than willing to help anyone who wants this set up. I'm frequently online so I make a great partner to help others who need it to be bypassed. I check my mail frequently and

am more than willing to help anyone who wants it set up.

Basically, all you do is download the program. E-mail me about what time you want it installed and we'll meet on the website together.

Easy, no?

The website is called www.crossloop.com/ipage.htm?id=predownload

My email is extraemail564@gmail.com

Feel free to visit my website helpmestop.weebly.com to other tips, advice and support.

I have much experience with k9, its settings and how people usually fall with it. I am happy to give recommendations in terms of settings to all who seek them.

I love GYE and couldn't thank them enough. That is why I feel such a strong need to give back and what better way than spreading k9?!!!!!!!!!!

Give it a try why wouldn't you? ??? ??? ???
