

Solution to the world's problem's

One of the main reasons we go to negative stuff like porn, is we do not have sufficient alcoholic beverages in our system, one of the things that works, is to smoke up a joint or two, or say a few l'chiams. This will fix our chemical balance.

The question is, why is the horse drinking? Is it the fact that he's drinking and probably making a chazershtal of the stable, and making everyone unstable like him, making him a horse?!? Or because he's a horse

Switching porn for alcohol and tobacco is essentially switching one addiction for another. You won't become sober this way. Changing the chemical imbalance of addiction requires internal work.

The chemical imbalance is that we don't have enough weed and alcohol in our systems. We try to substitute it with inappropriate stuff. This is the problem we must face our problem head on by getting stoned and trashed to fix the imbalance.

I've often considered taking a shot every time I had an urge for porn or masturbation. That way I could replace my sexual addiction with an equally unhealthy but much more socially acceptable alcohol addiction. And then it would be so much easier to get the help I need.

The catch is that when I'm drunk I'm much more likely to actually give in to those urges for porn and masturbation. So I'd just end up with 2 problems. But I'm convinced that it's a workable mehalech.

I think Rabbi Yacov is unto something.

No, Not alcohol, thats a terrible addiction and it probably will cause more falls.

I am talking about weed. Someone once gave me weed without knowing what it is, i didnt like the feeling at all, but listen to this.

I am not going to trigger anyone here, suffice it to say, i couldnt fall even if i wanted to, (i wanted to) I COULDNT!

Something to look into.....
