

This is real - ??????!!

Posted by pleaseplease - 11 Jun 2025 16:51

---

Hi,

I hope GYE gives me permission to write to following message,

I know no-one will believe my message but this is 100% true!

For years and years I struggled with M, until 1 day when I was in Israel I found a paper in a shul from an organization called "????????".

It said all types of things that I related to re ??? and it said (in Hebrew), "Do you want for once and forever stop doing this....". I stuffed it in my pocket as I was to embarrassed to read this in public. When I came home I called the number from the organization and couldn't believe what I actually heard that many people struggle with the same thing like me. I was in shock!! fast forward I connected to the Hotline and spoke to someone live there.

They basically explained me that since I made so many aveiros, the ????? is to strong to stop it and only way to do it is by making real teshuvo for all my aveiros also they said that sometimes someone comes from a gilgul that made a lot of aveiros and you need to make teshuvo on that to. It first didn't make sense to me as it sounded all weird to me but I decided I have nothing to loose. And on 1 Friday and made the tikun that they described (Which I will explain with GYE permission). And believe it or not!!!! I am clean since then!!!! Yes Yes raboisai we are talking already a few years later.

If the oilom is interested I will explain more about it and provide information!!!!

Have a good day!

[pleaseplease wrote on 13 Jun 2025 09:42:](#)

I thank you all for your comments!

This is just crazy how the YH works! Instead of making a small effort of reading the kuntrass or calling the hotline to find out more about it people are just so negative and come out with all their sh\*tas against this instead of finding out if many this will help them!

The YH will make you find all thoughts against something someone is offering instead of diving into in and check it out.

BTW the Zohar writes that when you sin with M it affects your mind since it all comes from there, and that's why many people have problems with concentration after they fall a lot, and this has helped many people with that.

I am not here advertising this amazing thing, I just want people to get better and use all sources to get better.

Maybe if I see people interest here I will write an Crazy crazy story I had recently after using theis kuntrass, real mindblowing.

Hatsloche

i was skeptical in the beginning, but with this message you lost me

Regarding Haskomos and what else this organisation does check this out: [kolhalashon.com/PDF/Shiurim/38362/38362562.pdf](http://kolhalashon.com/PDF/Shiurim/38362/38362562.pdf)

They have Haskomos from all kind of Gedolim.

Not quite or at all!

Daas Torah to me (and I hope to anyone else) would mean some of the gedolei poskim and mekubalim writing a letter of endorsement on headed paper about this organisation. The sort of thing you would find at the front of any sefer written nowadays. not an ask the Rabbi website....

I agree that having a personal Rabbi is better than an ask the Rabbi website. You can go ahead and ask your Rabbi what he says about the organization. For those who aren't going to ask their Rabbi, this website is from very reliable Rabbanim. By the way, this website is against the organization. I do agree that it is better to ask your Rabbi.

I also noticed that the website seems to be against it. That being the case why did you say it have given it a haskomo?

Either way totally agree with you that it's something people should ask their own personal local orthodox competent Rov (or mekubal) and I'm just pointing out that all these sheimos hakadoishim flying around the ether of GYE is not wise.

What they write that they don't need askamos is contradicted by GYE who has askamos. I think that it is very wrong to work in this area without askamos as the pitfalls are many. i find it quite surprising for such an organization to work without askamos.

I am still curious to know what they do aside for pamphlets and tikunnim.

I saw in the link you attached that they have askamos. There seem to be Rabbanim who are for tikunnim and those that are against it. I saw in the askamos that the organization also has a hotline. If the people manning the hotlines are trained like the mentors on GYE then it is a good thing. Once someone is on GYE I am not sure how much they have to gain from V'nishmartem except for tikunnim but for that everyone should ask their local Rabbi as there seem to be conflicting opinions among Rabbanim of different communities whether it is a good thing.

Personally, I had to put my focus on recovery until I healed and I had nothing to gain from doing tikunnim as long as I was still falling. Now that I healed, I am helping others as my tikkun and I don't see myself doing the tikunnim. I am chassidish but my Rebbe wouldn't have promoted doing them. This is just my personal experience and for a psak people should ask their Rabbi. For you, I am very glad that it worked wonders.
