Shalom aleichem - this is truly a remarkable site. I recently stumbled upon it and and extremely grateful. For five years I have been using EFT "Emotional Freedom Techniques" [a mix between NLP and self-accupuncture], that B"H have greatly improved my physical and emotional health. When I read GYE and applied EFT to 'LUST', the results were amazing: the intensity of the nisayon greatly reduced, some relief! It's been this good this past month. Due to the successs of EFT and the EFT originator aging, he is turning off his webiste on Jan 15. I suggest that you check it out and at least download the EFT manual. Hatzlacha raba!

Thanks for the tip.

I've downloaded the free handbook but I am yet to look over it. Is there anything else I should download before the site closes?
