

How do you advance from Newbie Status?

Hello GYE admin and others,

I noticed that people get advanced status's near where it says how many times a person has posted. Right now I am at 30 posts and it says "Newbie." Does that status change from Newbie at any point?

Today is erev Shabbos so I must be brief.

In short, I learned the ill effect that looking at pritzus has, the importance to learn Torah to keep the neshama bright and that it brings tremendous zechuyos to a person who holds back from looking at improper things.

And what about the colored blocks (formerly stars) :-\

Guard is a Five-Star General ;D

But those do not correspond to the number of posts! ???

This question has been asked many months ago on another thread without a satisfactory
