MASTER ILLUSIONIST

This is greatest magic trick of our time.

The trick works like this:

Think of a number from 14 to18.

Now think about yourself for a second .

Do you consider yourself a capable person?

Do you consider yourself a person that aims to be good?

Do you think there are a few nice things about life?

Is there a small point inside of you that can say: "I am glad to be alive"? (Rabbi Noach Weinberg)

Do you think you have a hopeful future?

After you have done this mediation go to a p*rn site.

They are not too difficult to find.

Look at what they have there for 0.4 seconds or more

(Rabbi Abraham Twersky)

Abracadabra, Now see all your good thoughts and feelings about life, the ones around you, yourself and your future vanish in thin air.

The number between 14 and 18 is just the amount of hours it takes to "get back" to a semblance your normal, good self.

Do or die; one day at a time; it's not that bad!
