Yowzer!

New Improved GYE Handbook on the way!!

Read about it in today's chizuk email:

New Handbook Version on the Way!

We are in the process of redoing the GuardYourEyes Handbook more professionally. We have rearranged some of the tools, and added some new ones. The new handbook will now have 20 tools in progressive order, as opposed to 18. We hope it will be ready in the coming week or so. Meanwhile, we wanted to share with the GYE community an entirely new tool that we added to the new version. We'd be happy to hear your feedback, and we'd also like to hear (in terms of the "progressive" nature of the tools) if you think that this tool belongs relatively in the beginning (around "Alternate Fulfillment") or more towards the end of the tools (around "Therapy" and "Medication"). Let us hear your thoughts at eyes.guard@gmail.com.

Anybody know why there are so many more school*girls* than school*boys* in Japan?

Or are my problems worse than I thought?

Yeah, they're worse.

...but don't worry, somebody else's are worse still!
