Turns out Reb Guard changed my Avatar to match the symbolism of my recent post, describing the tides of the Yeitzer.

I'm honored to be granted an Avatar from Reb Guard. But, I still like the weird approach.

So I just changed it a little bit.

Since cord' mentioned Avatars - This has its own thread right here

Dont Kramate them all in 1 week please

once the WD-40 started to wear off, and Dorothy disappeared, she thought hard into what could make her more acceptable to gye, The scarecrow with this new brains, suggested longer sleeves. I'm not sure that the tin-man would pass the mods on the SSA forum though...

Darn!

What will I masturbate to this evening? Dorothy's elbows were the only skin sneaking thru my filter. Guess I will need to dream about her ruffles now. Or perhaps, I might need to go out and buy a hamodia, and see if they left Melania's shadow in one of the pictures. Too bad trump let that chicks go. It was my hope that she would stay.

I sincerely apologize. The cowardly lion has suggested that we do it another way. Perhaps this will be Troublefree.

I think that we got it all covered now...

I'm starting to feel bad for the editors of the Hamodia...

Good thing you blacked out the one on the right too. What if someone has SSA (Straw-stuffed Scarecrow Attraction)?
