Testin' the New Editor

_____

We thank Guard and his team for updatin' the site and the editor.

There are many new features to make it easier.

There are, however, still kinks as well.

In this post, there will be a list of questions, suggestions and error reportin'.

As a thread goes on, the post gets lost.

Accordin'ly, I will be doin' as follows.

If you have an issue, question, answer, comment, or whatever, email it to me:
thenewme613@hotmail.com.

I will then add it to this post.

All other posts on this thread (other than Guard's) will be deleted, for it will not be orderly, and then it will not get fixed.

Thank you

1. the "quote" feature needs to be fixed.

2. the "source" button needs to be explained.

3. the "quote" button on mobile version needs an overhaul.

4. the "spoiler" button has been removed. Guard's note: We used to have a button for "Spoilers". It inserted the code
Warning: Spoiler!

. We can still do this in the SOURCE, but it would be nice if we could have a "Spoiler" button in the editor as well please.

5. the "insert image" has disappeared. Guard's update: When I insert an image, sometimes it works (like this IMAGE: http://tiptipa.org.il/template/img/benefits-2.png) and sometimes it doesn't (like this IMAGE:http://f.a7.org/Resize/pictures/180x120/608829.jpg?&autocrop=1)

6. the "strike thru" button is not workin'.

7. Can we make everything work in "quick reply" and we won't need "full reply" anymore? This would include both rows of editing tools as well as "attach file".

8. If we do 1 above, remove the "Quick Reply" button and leave only the "Reply" button, but change the functionality of the Reply button to the functionality of Quick Reply.

9. Tried to attach file - didn't work

10. What would it take to make the e-mails of posts (when a user is subscribed to a thread) to include the formatting? (Right now it comes as code).

11. Inserting a table works in preview, but when posted it disappears (no borders show). Also when pressing EDIT it is gone.

12. When I use the "Quote" button in the editor to manually create a quote, it puts the word "Wrote:" on top of the quote box. Can we remove that?

13. The yiddish site is showing me BOTH editors. The old one AND the new one!

14. People who are subscribed to a thread on the Yiddish forum get an e-mail with the message filled with code. For example:
color=#FF0000**?? ??? ???? ???? ?"? ??? 2 ????? ??? (120 ?????) ????**[/color]

15. The editor tools in mobile take up 5 lines. Please make sure the tools fit into just 3 lines.

This post will be constantly updated.

Thank you

Hi Shea

Hope you're havin' fun

Hey if you have a sec I had a small request for "Chat" on Mobile

1) When the device is turned sideways (from portrait to landscape) the chat jumps to the 20th last message, and doesn't remain on the last message

2) A mobile user who is online on gye cannot see the chat, and should not show on the chat page that he is on the chat, unless he's actually on the specific Chat page

Have a great day, and if you had other plans, go find the JHF section

Oh and one more thing for Mobile Chat

3) When on chat I put my phone to vibrate so others (eg wife) don't need to 'hear' my conversation

All other apps vibrate but the chat still rings - Loud (and I don't like to change the general volume just for the chat. Vibrate should suffice, but it doesn't work for the chat... yet

4) Can you block missionary activity from the chat?

I will look into these issues when I get back on Sunday.

In terms of missionaries, is there a certain user you are referring too? I can block users if you

can tell me who they are....
