1. If a phone starts ringing on Yom Tov, what would you do?

Assumption: (and for the next 10 seconds, you would be able to see the caller ID, but afterward you would have to wait until Chol to find out who called,)

Thank you for your response, RE.

I do not think it is assur.

This was not meant to be a halachic or hashkafic discussion. Just curious what you would do.

For example, would you even get up and go to another room to check?

Thank you again
