Moe treats chani just like porn treats me.

Porn tells me, I'm here for you, i love you, I won't be the best for you.

But just like in the story. moe is currently completely self obsessed and self centered. Chanie is making a big mistake (forget about religion and commitment for a moment) by getting involved with him.

So to the porn industry and the actors don't give a hoot about us, all they care is to make money, even if it ruins our lives. We shouldn't get involved not just because it's a sin, it's just a really bad idea period.

I agree.

I think Moe should have known better.

Also Chani Should have been more committed. Also, she should be more open with her husband and what she wants. I thought Chani was going to be loyal to her friend and tell Moe to get real with it. Also selfish.

Also if you look back in the story Chani watched sex drama. Soap operas and romance novels. It's not Porn, but it makes sex into a fantasy that doesn't exist. I don't know what is said there. But I am guessing it is not too far from porn.

Grant I am holding my breath, please I cant hold it it for too much longer for the next installment.
LOL

I gave up secular novels because of this. Even ones that aren't triggering I realized were construing my knowledge of what real marriage is like.

And I was the guy who thought the Mashgiach was going overboard when he gave the shmuess against reading clean secular books...

Grant I love the story. When will you post the next chapter? I'm sure I'm not the only one that goes directly to this part of the forum to see if you updated. Thank you for helping me realize my own flaws

I have been following this amazing story, but based on the last several posts, it seems like I missed some chapters. I didn't see any new material. Is this story being sent via private message?

Grant,

Last episode was March 7. Was that the last. Did Moe and Esther finally turn a new leaf and live happily ever after, as all Hollywood stories beautifully end?

If I may ask - What about your personal lust battle sir General. Is the war over?

Rabbi General Grant I (and I'm sure so many others) would love to see the story continue but that being said obviously we don't want to pressure you especially because that can be stressful so while we would love to see a continuation if its not possible we understand

Grant is back!

Thank you for continuing the series.

Somehow you have the ability to describe the emotions that are going on in a surreal way.

For myself, one thing if I drag myself into garbage but I can't imagine causing such pain to

another.

From what I understand that reason alone may not be enough rather there has to be something in me that wants to be clean.....for me.

This latest chapter is amazing! It expresses so well the pain of the wife, and at the same time the Rav's advice is PRICELESS, both to her - and to Moe.

I'm really looking forward to making an eBook out of this story when it's done, which I believe can help a lot of people one day!

Thank you Grant!

"Until he is done blaming his life on his circumstances". Ouch

as they say, lust was not the problem, it was the solution to ourbproblem, and unless we find a different solution we will keep heading back to that one.

Thank again Grant, wonderful piece!
