I heard about this great website called Guard Your Brains...

Over there you'll only see posts about:

kangaroo tails (the mandatory marsupial)

chicken liquor

warthog chulent

sorbet sushi

thinking about too few yellow elephants

hanging around KHALEED

too little mountain-goat wrestling

Slabodker nigunim

Doesn't **that** give you some hope?

You guys have skipped to the 13th step. that is where the lust addict moves on to a state of insanity similar to the one he experienced in his addict days... only this time with teh wafting aromas of all these great eats weze is talkin about he is higher and nuttier n ever. but remains sober. in part due to self control, in part due to extreme nasuea, and in part due to group support. The group support for the nasuea is the 14th step. 15th and sixteenth have been repealed but are expected on a public ballot next election. at that time we may all experience a shalacking the fumes of which combine wiht the possum porridge and rabbits feet, gnewt tales and all dem yummies and take us even higher. and the cycle begins once more with step one

OTR you are right

we iz nuts

but to add steps to the Steps? especially 'teen' steps...

everyone knows that the teenage years are hard and dangerous

studies have shown that 100% of teens that got into accidents or died were in their teens

so anything 'teen' is a little scary
