Flaget Memorial Hospital, a 52-bed facility is the only hospital in the Nelson County (Bardstown) area and treats those from Marion, Washington, Spencer, Bullitt and LaRue counties in addition to Nelson County.

maybe something "seriously problematic" means looking at p*** while something "inappropriate" means looking at women who would not exactly fit into Meah Shearim but are otherwise (somewhat un)dressed like most of the population

this article brings up an important point. internet addiciton and lust addiction are two separate thigns..... remember mast* even before you had a computer access to the web? Internet addiction is being addicted to cyberspace at the expense of real wrld. THERE are people who go out and by adult diapers, literally so they can go in thier pants and dont have to get up while playing cyber online video games. it is that much ofa world escape for them that they become addicted to it. Kind of like lust forus. I thinkthis artilce while not dealing with p* touchies on the important fact that web addiction can be its own serious and detrimental issue.
