

How do I move an earlier thread to my current thread

Can anyone help me with this? I moved my thread from "Introduce yourself" to the "Wall of Honor".

The thread I moved from "Introduce Yourself" was called "My Hearts Pounding and I'm Sweating". The last post on that thread was July 2, 2010. When I moved it from the "introduce yourself" forum over to the "Wall of Honor" forum it showed up, in correct chronological order at July 2, 2010 on the WoH.

So what I'm trying to do is take the old thread, "My Hearts Pounding..." and put it at the head of my current thread ("Tatti Tatti Just for Today"), so that there's one thread.

Is this something I should ask Guard about? Anybody out there know how to do it? I hope my explanation makes sense.

Thanks.

I'm not sure that it is possible. They are just 2 different threads. You can quote or link to the old thread.

I see someone else moved a thread. Maybe you can. Maybe you need Guard to do it????
