

Back on Track's trekking along

Posted by Back on Track - 07 Aug 2011 19:45

hi everybody. clean 100 days here. but looking for chizuk in continuing this journey to where we all know we want to be. A little about me. born modern- became frum later in life. Had prob with m* since I was able to. I began working toward recovery about 2 years ago. I had a lot of ups and downsn, I am finally at a point where things in that area of life seem to be leveling out. only thing is everything else is so up in the air..... I actually dont know whether Im comin or goin. But Hashem has a plan for all of us, and thats what we need to follow.

Bards, your posts need to come with a warning. Do not eat or drink while reading these posts... Unless of course you'd like to see how far you can project your food... or you'd like to see it

Bh still clean here. I viewed a sach p* though last 2 days. It is beginning to come out as

anger/impatiebce on others. This is clearly wrong, and is only my frustration and lack of satisfaction with myself. :) gotta get this back in order.

gevura - I hope you have a smooth ride.

we hate bumps.

truck around them never face them.

back on track - post away my friend.

We just bounce right over them and keep trucking! And if we get mired in the mud we hit the gas and power through!

guys thanks for the chizuk. yeah i closed off my computer again to everything but my whitelist. I kinda have to go back and forth between that and opening it a bit. (once it is not whitelisted I am able to get around it all too easily but i wont share the details with anyone. apart from being a truck driver im also a bit of a computer geek so i know abit abt filters etc.... BH, its closed now and safe time ahead for the next few miles. If anyone has some ideas for me how to deal with needing to open the filter at times and how to remain safe i am all ears. (any practical eitzos etc...) porn sucks. its not even like i masturbate so i just like sat there and watched....

Are you able to add custom sites to your whitelist? Then you can just add what you need and keep everything else blocked.

i dont have the password. but yes we can add on a site by site basis. my wife calls and does this. it is a major drag though and for reasons that it is better not to elaborate on let's just say for me if I can get to something like my bank, or gmail... i can get to shmutz. so it is rather limiting. but at the same time freeing. ?????? life's funny like that i guess.

any practical eitzos

How about adding webchaver in addition to your filter. This way you'll have someone looking over your shoulder.

How about a neder that before you go on to a questionable website you'll put on a hat and jacket and read the following from the chofetz chaim and if you don't you'll give \$100 to GYE.
