Gut Moed and welcome aboard!

Around here we say "Fell Shmell!!" that means that a fall does not negate all the hard work and accomplishment that came before. You did 18 days clean, that's an amazing achievement! Those 18 days are waiting for you in Olam Haba and nothing can take them away.

You already have the right attitude, Atzvus is one of the YH's strongest weapons. So let go of the falls, they are in the past, the future is what counts. Just concentrate on being clean today, and every day is a new today.

Keep On Trucking!!! (do you know what that means yet?)

Gevura!

Keep on Trucking ("KUT") literally means Carry on driving your lorry, which means carry on

Well let's take a step back and see if we can assess the situation. This shmutz is ruining your family life and whatever you've been doing until now doesn't seem to be working. What is it exactly that you've been doing? Is it just the desire to stop? So you have a filter and accountability software? If no, why not? If yes, than obviously you need something more. Have you read through the GYE handbook? Do you read the daily chizzuk emails? Signed up for an accountability partner? These are all constructive steps that you can do right away and which will enhance your recovery. Tried them all and still not working then join one of the 12 step calls. And of course post here when you get the urge to act out come here instead.

Much hatzlacha and welcome.
