

Nice to be home!!!

hello,

for those who dont know me.....you should get ready for the king of typeoes.....a lot of misspelled words in case i spelled typo wrong.....anyways

about a year ago i was on the old forum see there....i have a couple threads over there.

baruch hashem at the time i was doing quite well compared to where i was coming from but i still had and have a lot of work to continue doing.

some things that i for sure want to emphasise about coming back....the group support is amazing chizzuk!

i have another issue.....theres always those 2 or 3 things that bother you (really there are like hundreds of things that can bother a person at one time) but right now most of them in me boil down to 2 main klalim so these 2 or 3 things actually consist of many things....(this is actually the 4th and 5th step of the 12 steps) and that is for sure something

the key is simcha!

btw i use the yeshiva computer so im not sure about how consistant i can be it looks like fridays will be my longer days to look around at other people threads but other days i only have 5 or 10 min at a time...so i will try to check in as much as possible.....

BH im still doing very well because of hashems control over me. i dont want to use the word hashems help (id rather say hashems soldier) because that word implies i have power against these issues and just the hashem gives a little push. but really its all hashem not only in this issue but in everywhere in life.

it could be that i already said this but the difference through this time doing the 12 steps and the last time i did it was that last time i was just kind of learning about them but this time i feel that i am really working the steps.

so what is the issue with HALT= hungry anxious lonely and tired? its that thse are the most

vulnerable times that a person feels HIMSELF. the whole point of the program is to offer nd surrender our wills to hashem but these are times a person gets very much into himself. meaning the crankiness or the felling itself if not the bad thing its that it very easily leads into ME situations.

i just cant hold myself back from doing this...its just so cool

**Warning: Spoiler!**

iyh trying to arrange my 5th step with someone in the meantime im also trying to work out on step 6 as the book says that your able to postpone step 5 if you plan on doing it ASAP
