A whole year is a lot to bite off. Maybe you should make a resolution everyday to be clean today.

What's the old stuff?

Maybe you can start by putting a filter on your laptop.

I don't know about you, but I've made kabbalos to stay away from porn many times and it pretty much never helped, definitely not for a year. If all it took to stop was a kabbalah I'm pretty sure we would all be clean.

It takes work, hard work. Are you ready to give up porn and have to work hard to do it?

a gut voch un a gut yur!!!!!! there is no trick or button that will get u off porn just like that first of all take each day at a time (i went through this type of huge kabalas) and know that each challenge is a huge win not just all of it together. second of all all the old stuff really work if you work on them too. we dont need new ideas we need new goals and new strength to start over and over till we win be"n.

Unfortunately, nothing we say here will help if you don't want to be helped.

On the other hand, just do it one day at a time. For me it took clean time to appreciate that I really did want to be clean
