I heard a story from Harav Yosef Chaim Greenwald about a bucher who went off the darach and the reason was only to be able to do inappropriate stuff.

His dad run around asking for help somebody told him that Rab Yidala Horowitz who lived in eretz yisroal helped a lot of buchiriam with kadisha problem's so he went to him.

Rab yidala told him that he want to talk to the bucher

Finally after hard work the dad convinced the bucher to go rabe yidala

Rabe yidala told him you should know one think, every time that you have a fall but you are waiting before you do it even as little as few seconds, and you think I really shouldn't do this even though you know you will at the end fall and you won't win, hasham is announcing in haven I have a kid on earth who is trying to fight with the evil even when he know that he won't win, and he is repeating it every second and this you should remember every time that you have a fall

It didn't take long until he was back

he said every time he fade a fall he waited just a few seconds after a few times he start waiting a few minutes and on and on until he was free

I myself take this as a big chuzik
