Thank you for the chizuk.

Wipe off the snow...

There is no snow where I am living. But I feel again so cold and closed after a two week break from therapy, I even cannot cry:(But things are getting better. It is this strange feeling of having no feeling. And yes, there is a very strong feeling, when being mz"l, r"l, but I do not want this vicious cycle.

Recently I also started taking an antidepressant, "yehi rotzon milfonecho Hashem Elokai, sehihye eysek zeh li lifuo, ki rofey chinom oto."
