

Was clean for 4 weeks

Posted by StartingOver - 19 Sep 2014 05:16

---

I started dating a new woman and I was clean for four weeks. Didn't look at porn once (some provocative pictures) and barely touched myself. I screwed up last last two days. I looked.

The woman I am dating told me that she broke up with a guy who admitted he had a porn addiction.

I thought I was over this.

Not sure what to do right now...
