I believe that many of us (myself included) place the pressure on ourselves....the countin' of the hours and the days lead to doom...usually....live the moment before you.

I believe you are right, we do set the doom clock.

I need to find a healthy balance.

I find when I don't count at all I lose focus that way and when I count all the time it becomes a pressure cooker.

find the balance...

Welcome Nurb!!!

I know i'm a bit late but this is the first time i'm seeing your thread.

Do you want to share with us what are the tools to lead you to 90 days. Not the ones that you know work in theory rather what tools are you working in reality?

Hope to see you around KOMT!!!!
