

I'm not sure

Posted by Wilster - 28 Jun 2015 19:40

My previous record is probably between 50-75 days. Usually when I've tried to keep track in the past, it's been in my head.

Tell us some more about yourself, how long you've been struggling, what you do to get those streaks, what triggers your falls, etc.

Don't be a stranger, we're all in the same boat, going through (more or less) the same things, there's no need to be afraid of being judged and not understood!

Ok, so I'm clean since last Friday, but I don't know how to edit that. I wasn't clean the previous day, but now it says 15 days because that was the last time I updated with a fall. So, that's 5 days, not 15. I'm not proud of this, in fact at the end of that Thursday I threw my phone at the wall in frustration, but I'm often a stickler for accuracy.

Sorry to hear about your fall.

You still haven't told us much about your struggles, but it seems it may have something to do

with your phone....

Do you have a filter on your phone? What have you been doing that you were expecting to stay clean this time around?

I can totally relate to the perfectionist thing. Keep strong and don't let it get between you and your goals. KOP
