_____

(Disclaimer: feel free to read on but I'm just rambling so no need for response even though it would be appreciated)

taking the plunge and starting a thread because today was my first fall since joining GYE (217 days clean!) Before GYE the longest I went was about a week or so but usually fell daily. Thanks to the wonderful people behind GYE and all who take time to read/post/moderate the forum.

its amazing how far I've come as my first response to my fall was: now is a time to restart and reflect on how far I've come!

The greatest thing GYE gave me this far was that it's all about this moment and getting through the day. Celebrate the ups and don't let the downs be downfalls only stepping stones to improve.

i don't have time now but iyh bn I'll continue over shabbos to analyze why this took place and how to prevent falls in the future.

 Thanks again to all and have a wonderful Shabbos!

KOMT!!!

The only awareness I get from my tzitzis is how messed up the knots get over time

As long as it's only the knots that are messed up.
