

technical parts of the 90 day chart

Posted by barber - 18 Jan 2021 00:18

---

what is the order lets say im at day 20 and another fellow is also on on day 20, who will be higher on the chart?

i made my chart on 7pm but i made it based on a few days before and every day at 7pm it changes day, it doesn't make sense

when is somebody falling of the chart? if he got already to the wall of honor? let say i was years ago using a different user name and got to the wall of honor followed with a huge act out, i don't see it on the wall of honor

is their a way to see the personalized chart after 90 days?

I'm guessing you're in Eastern Time. The chart probably rolls over on GMT.
