

OivedElokim-I'll never give up

Posted by OivedElokim - 21 Feb 2021 21:37

---

**Day one.**

This is my brand new thread for my brand new journey towards purity.

I will keep with me the lessons learned so far and keep my eye on the ball.

Today is the first day of the rest of my life.

A porn and masturbation free life.

A life of positivity and happiness.

A life of Torah and Avodah.

The life G-d intends for me to live.

Wish me luck.

## Day 11

Met my 10 day goal over Shabbos , BH. Time to set a new one... Is 20 days too much?

There was a very attractive girl that was around this Shabbos and I did a horrible job at not looking. It wasn't a fall by GYE standards, although I definitely had the urge to masturbate which I overcame. It's not the end of the world but it's definitely something to work on...

I'm having a serious struggle now. I really want to watch stuff and masturbate. I hope I can pull myself together...

Just fell. Gotta pay my knas. Not feeling serious regret. Feel like it was worth it. It's a problem that I look at it that way...

Anyways, not gonna let the "what the heck" effect perpetuate the state of falling...

Sorry to hear man.

I feel the pain, I really do. The "What The Heck" affect is real, and dangerous, gotta watch out for that.

You we're matzliach though for 12 days, a very big accomplishment, it really is. And we must remember that as much as streaks are important, we are not defined by them.

You are an Oived Elokim, you are "????? ??????", and you remain on your way, enroute, to a state of ?????? and unadulterated ????.

With hope and love,

YeshivaGuy

Fell again last night on a laptop after using my delay tactics. It seems to me that the price is not high enough for me to stop...

I'm **so** fed up with this....

What's wrong with a real filter that just blocks it?

Although, anything but a whitelist never "saves" me.

Maybe give Dov a call?

Hatzlachah

The screen is smashed beyond repair?

Hatzlachah

I have a whitelist filter for my phone. The problem is when I have access to other unfiltered devices (won't be an issue for the next few weeks, Bh)
