Destination - 90 days, A human beings journey.
Posted by Human being - 05 Jan 2022 18:52

Here I go, this will be the spot for my journey to 90 days! I'm excited to finally start. Its my first time legitimately trying to stop masturbating and calling phone sex lines to listen to the recordings (and occasional porn when I have access).

Whatever my ETA is, 90 days is my destination.

I will hopefully post every day. Any feedback is appreciated.

I usually have a really hard time with phone sex lines when I'm in bed and going to sleep, which has always ended in masturbation. This is especially when I have a hard time falling asleep.

See you down the road- enjoy the ride!

First of all Thank you @shtarkandemotional, thats a nice comment. Your a good person.

So here I am @day 40. This is really significant to me, 40 days is what the torah considers 'Breaking a middah".

I have found that other addictive behaviors I have, namely computer addiction has the same affect on me as masturbation did. It makes me feel so shameful that I have no control. So just pointing out that as I see success in 1 area I'm noticing failures in others. (which is a good thing, in the past I didn't connect my shameful feelings to my addictive behavior)

But a big thing to point out here, is that in the past, my feeling shameful about other addictions and behaviors has led me to phone sex and masturbation [or porn when I have access] to escape from those feelings. (Which obviously led to even worse feelings of shame).

Over the past 40 days-thank god I've not gone there. Thank you everyone for all the support!

On to 90

Good Shabbos. Love, Hugs and more love. Good luck with everyone to get some good rest and

A tip I heard for bad thoughts is not to fight them because than you are putting your brain on that thought rather think about something different (like what kind of sushi you are going to buy) or sing a song

So im here on day 46. 4 days till 50. Past the halfway point

Couple pointers

-Im stopping to really feel that "not masturbating or calling sex lines" is part of my day. Its kind of just become monotonous and not exciting. Its just something i dont do right now. It makes it harder to care about the forum streaks or the struggle in general.

-I find chasunas very hard to keep my head in the right place because im craving intimacy and everyone looks cute.

-I find that when i drink I have a very hard time with my mind. Its more of an emotional issue then a kedusha issue, but its intertwined. The pain of craving intimcy and bieng unable and unallowed is intensly painful.
