

Nothing to lose

Nothing to lose by starting the 90 day challenge.

the challenges i see before me:

The sturggle to get off my devices.

staying positive and not falling into the trap of skipping steps.

finding ways to interact more with people in the real world.

I have struggled with this for many years I have tried different tools and I see what a differences it makes in my life when I am clean I might as well start.

Starting Day 6

struggling a bit with my beliefs I can do this today.

I thinks it's the results of a lot of limiting self talk the last few days.

What is stopping you from "doing it"? If you did 5, why is 6 so formidable?

Had a fall today.

the answer to your question is preconceived beliefs about 5 days.

5 days was a success in itself but I was so focused on making it to 5 days again I didn't think about day 6 and anything that came after I didn't prepare myself mentally to keep going after 5.

Day 1 Fresh Start

Nothing like a nice fresh start. But what are you going to do differently this time?

Half way through day 3

notice I am less cynical since I started the 90 day challange overall and on top of that when I keep consistent with GYE and others I feel like it's only a matter of time... so thank you
