Hey folks, as u all know, I've been up. Here for a while now, and u all had a chance to see my struggles and my history, so here I am almost 60 days clean

So now what?? What happens after 90 days, do I become suddenly normal or what

ok guys, let me not make this a drama movie, here is what happened unfortunately i had a wet dream :-[for all of u who have had this i can tell u it was b"h a clean one which already shows progress but still not something I wanted or expected, there was nothing special to trigger this, i can only blame it on my not saying Birchat Hamapil, so my question is would that be that considered a slip or a fall, whatever the pros here will pasken i will be mkabel bahava

This was discussed in depth in the "Wet Dreams" thread; It is neither a slip nor a fall!

Keep on smiling!

Keep on growing!

KEEP ON TRUCKING!!!!

Ani Hakutun (not a pro) says that, that doesn't count as a fall/slip....

Keep on going....

Wouldn't worry about that at all, JIP.

You're still rocketing up that wall!

This has already been answered, but just to add my 2 cents - it's been discussed, wet dreams are totally not a slip. No problem at all.

Yeah, wet dreams may be slippery, but they're not slips.

Keep working on the stuff while you're awake. Less exposure to real slips or close fall calls, and the WDs will go poof. You can even get to a time when you'll stay in the dream state, but stop yourself b4 going too far, thinking "I can't do this and ruin my GYE count!"

Try the Ravad's Tainis for a month, that I've mentioned so often. It REALLY works to lessen your "need" to give into any taivos.
