

NEED INTERNET ACCESS WHILE IN STATES

Posted by the.guard - 12 Aug 2010 20:56

Rabosai, the place I'm staying in the U.S doesn't have internet access and I need access to my gmail account to be able to send the parlor meeting invitation out, and to confirm people's attendance. Does anyone have any ideas? Perhaps someone has a blackberry or iPhone or something like that, that has access to the internet that I could borrow for a week while in N.Y?

(Unless it has a strong filter, I will not use it unless my partner is with me in the room. I am ;D)

Please be in touch with me at eyes.guard@gmail.com

Thanks and Tizke Lemitzvos!

P.S. We found someone to video the event.
