

fresh start

Posted by Sturggle - 06 Jul 2009 19:35

I was on the list before under a different name and I decided to change it. Previously I was "David". I am nearing the end of my 4th day clean. Today was difficult and challenging. Thanks to your help, I have had a filter (K9) on my computer since Thursday afternoon. That has been helpful. Anyway, happy to be on this journey of sobriety. I'm not so sure how much to disclose about myself and what to write on these forums. I hope to make use of them, though. I have needed, do need and will need help and support.

Sturggle!

Sorry to hear about your fall buddy!

Have a good shabbos!

Bestrong

~~btw, F-16's are from the 20th century, how about a F-22 or an F-35?~~

thanks for the good wishes guys,

BeStrong, so good to hear from you!

and Zemiros, if you have a suggestion for me...

so, I don't even know exactly what today is,

Dov, you'd be proud,

keeping focus on today being the one day clean

had a good day yesterday,

just got a lot of learning in,

felt good overall.

dealing with some anger,

not too much lust at the moment,

and don't want to go there,

so before i need to give up my lust
to a higher power,
i can give up my anger to a higher power.

my suggestion is that you keep doing good stuff
and that you buy yourself a nice tall cappucino and sushi roll shaped like an F-16

very good to hear you are doing good!

thanks Dov.

and Z, I dont drink coffee,

but sushi is spot on!

where can i get one of those F-16 rolls?

i mean after all, it is the 21st century...

:D ;D ;D

that is really cool.

where's his ammo, though?

looks like it has a lot of stealth,

but i cant just keep dodging my yetzarim,

i need to strengthen myself

against the, take 'em down!

do you remember the U-2 or the SR-71?

neither one was armed

the U-2 was thought to fly too high to be vulnerable (Powers being shot down disproved that)

ok, you woke up the sleeping aviation buff in me
the SR-71 was supposed to fly too fast to be vulnerable

so there are more than one way to fight...

(and i think you are right about the stealth, probably keeps the missiles and stuff in internal bays)
