Need people to interview in film about the dangers of the Internet Posted by the guard - 20 Dec 2011 11:05

\_\_\_\_\_

Charlie Harari who works with Aish.com and project Inspire (see <a href="www.aish.com/authors/48869347.html">www.aish.com/authors/48869347.html</a>) is doing a film about the dangers of the Internet. He asked us for people he can interview that have first hand experience, either through their own actions or a close loved one, whether through pornography, cyber-bullying, ruined reputation, broken marriages etc. <a href="mailto:He will protect their identity fully">He will protect their identity fully</a>... I believe he wants to film for this documentary already this coming Thursday. It could be a big boost for GYE - and a big ziukui harabim if we can send him people who have been helped through GYE. (He is also a potential donor). If you would be willing to be interviewed about your story, please contact us ASAP at <a href="mailto:eves.quard@gmail.com">eves.quard@gmail.com</a>.

Thank you!
