

Looking for Spare Phones - Lezikui Harabim

Posted by the.guard - 04 Mar 2012 20:04

GYE's technician team (who help people find filters for all their devices) are looking for phones to test filtering software on.

Anyone who may have spare phones (or who wants to donate phones), it would be a big help for GYE and a *zikui harabbim*. We're looking for:

- **Androids**

- **Blackberries**

- **iPhones**

- **Symbians**

- **Palms**

(They must have Wifi)

If you have something to donate, please be in touch with us at eyes.guard@gmail.com.

Tizke Lemitzvos!
