TEHILLIM – Rabbi Dr. A.J. Twerski In Serious Condition With COVID-19

Tehillim is needed for Rabbi Dr. A.J. Twerski – beloved author, Talmid Chacham, and psychiatrist, who is in serious condition with COVID-19

Rav Twerski is currently in a hospital in Eretz Yisroel.

Rav Twerski has authored more than 60 Seforim and books, and is a world-renowned expert on addiction who has helped thousands over the years.

Please say Tehillim for **Avrohom Yehoshua Heshel ben Devorah Leah**.

Here is a collection of articles (over 100!!) that Rabbi Twerski wrote for GYE:

I thought of a suggestion. We can give a gift to Rabbi Twerski by davening to Hashem that he should have a full recovery, when we have an urge and we hold back from falling, as we know it's a big *eis ratzon* then...

He has done so much for US, let's give him something in return...

Great idea. Let's give the merit of all our saying "no" and turning away today for Rabbi Twerski's recovery!

He is not doing well, he was hospitalized yesterday and his situation was critical. B"H he stabilized, but he needs a miracle still.

Perhaps we can divide up the Tehillim here. The idea goes like this: Post which perakim you can say, from 1 and on, and in the following posts others will continue from that number and on, till we finish the Tehillim (and start over).
