We recieved an e-mail from someone today:

I wanted to let you know that I am reading a new book now called "Battle Plans" How to fight the Yezer Hora (Shaar Press) By Rebb. Tzipporah Heller and Rebb. Yocheved Riegler.

I have found this book incredible as it teaches so much about who our enemy is and how he works. It also gives incredible tools how to fight the yezer hora.

I strongly suggest that you add this book as recommended reading to every internet addict.
