

Looking for an Assistant Filter Gabai
Posted by the.guard - 11 May 2010 22:39

We are looking for an Assistant Filter Gabai to help with saving people's passwords for them, make remote changes (using remote accessing software, such as TeamViewer and ShowMyPC), and offer advice... If you are interested in being trained into the job, please be in contact with either me at eyes.guard@gmail.com or the filter Gabai at filter.gye@gmail.com.

This is a tremendous chesed for people, and one day (when we have more funds) we plan on expanding this service by offering a 24 hour hotline for advice and help with filters, both in Israel)

To qualify for the volunteer job, we need someone computer savvy, with some knowledge of filters, and with a mobile-device that gets e-mails (so he can respond to urgent requests). Also, you need to be sober at least 30 days, preferably 90 days, and married.

Thank you!

=====

and the U.S. (Who knows, if you start now, you might one day get a paid job to do this
