When i started with gye i thought that 12 steps was the route i had to take, but now im doing good without it. Talk to some people (i suggest hashemhelpme) and see what the right path for you might be.

I wouldn't say there's a certificate once completed IYKYK.

It works if you work it. If you think it's the route for you then go for it. It changed my life one day at a time.

Feel free to reach out if you wanna know more. Although I strongly advise you reaching out to Dov.
